PUBLIC NOTICE

AMMENDMENT TO ORIGINAL PUBLIC NOTICE NO. 26912N
OF September 24, 2003

NUMBER: 26912N (amended)

DATE: October 1, 2004

PROJECT MANAGER: David A. Ammerman

We are amending a statement made in the original Public Notice Number 26912N dated September 24, 2003. On page 11, second column, third paragraph, the sentence: "Bottom culture, once more prevalent than long-line culture, constitutes "fill" under the Corps definition cited above under Section 404 of the Clean Water Act" should be deleted. According to Coast Seafoods Company, it no longer operates or maintains any bottom culture beds in Humboldt Bay, so the deleted sentence is unnecessary and not relevant to the subject public notice.

For background information, the original public notice number 26912N, dated September 24, 2003, can be viewed at the San Francisco District Corps of Engineers' web site:
